Celman's Resignation

Full Account of How It Was
Acted On.

THE DEBATE IN THE CHAMBER.

Great Demonstrations of Joy Over the
Late President's Retirement—Some
Speculation Upon the New Cabinet and
How It Will Likely Be Composed.

JUAN MANUEL DE ROSAS, LATE PRESIDENT.

LONDON, Aug. 8.—The Times' Buenos
Ayres correspondent says: After the
reading in the chamber of deputies of
President Celman's resignation, Gen.
Roca invited the members to express
their opinions as to the advisability of
accepting it.

Gen. Mansella opposed its acceptance
on the ground that such action by the
chamber would be an admission of the
triumph of the revolution, and of Buenos
Ayres over the other provinces of
the republic. He declared that the ac-
tion of President Celman in tendering
his resignation was culpable toward
cowardice.

Gen. Roca explained that he had sac-
rificed himself in order to show how ut-
terly impossible it was for Celman to
continue in the presidency after the mis-
takes made by the members of the pre-
sidential party. Nobody, he declared,
could serve a man who had shown such
complete insipidity. He had gravely
compromised the country. It was not
Buenos Ayres alone which opposed
President Celman, but every province of
the republic. Every honest man was
against him.

Gen. Roca's remarks were greeted
with applause. The vote on accepting
the resignation was taken in dead sil-
ence, but when the result was an-
nounced showing a majority in favor of
accepting it, the chamber resounded
with cheers.

Gen. Roca left the chamber in order
to escape the joyful demonstrations of
those present. There is much rejoicing
throughout the city at the success of
the movement to force President Cel-
man's resignation.

A meeting of citizens last night was
addressed by Dr. Del Valle, who in the
course of his address said: "The Argen-
tine Republic is now secure; it will not
have a government of robbers."

Telegrams of congratulations at the
peaceful settlement of the disturbed
condition of affairs are arriving from all
parts of the republic, and the public are
aroused to a high pitch of enthusiasm.
President Pellegrini delivered an ad-
dress to the people, in which he said the
motto of the new government would be
justice and liberty. The force which
the executive and government will de-
pend upon for their defense is public
opinion. The address was received with
cheering cheers.

Vicente Fidel Lopez has been ap-
pointed minister of finance; Gen. Roca
has accepted the ministry of the in-
terior; Senor Eduardo Costa, the foreign
minister; Senor Gutierrez Lasta, the
ministry of education, and Gen.
Levalle, the ministry of war. There is
perfect harmony in the new cabinet.
Senor Saenz Peña has been elected pre-
sident of the National bank.

A deputation of leading citizens wait-
ed upon President Pellegrini to offer
their congratulations. Public confi-
dence is reviving. Gold is quoted at
125. The banks are closed, but the
bourse will be reopened very shortly.
Exchanges are rising.

ROWING THEM OVER.

Chinamen Still Doing the Sneak Act
from Canada.

BUFFALO, Aug. 8.—There seems to be
a gang of men on the Canadian side
who make a business of rowing China-
men over the river to the American
side. Lee Nam and Lee Sing and two
other Chinese were arrested Monday
night before they had been in Uncle
Sam's domain ten minutes.

Judging from the rates charged for
Mongolian importations it must be a
profitable business. They were brought
from near Victoria and landed under
cover of darkness just below Fourth
street, but Capt. Collins has been ac-
quainted with this little trick for some
time and has kept his officers on guard.
The Chinamen were turned over to the
custody of United States Deputy Watts
and were arraigned before United States
Commissioner Hirschbeck on a charge of
violating the United States exclusion
act. They pleaded not guilty and were
held for further examination.

ping point for the Chinamen, and it is
said many of them are being smuggled
into the country daily. Deputy Watts
and his officers will make a desperate
effort to capture the gang who row
Chinamen across the river.

ONE DEAD, ANOTHER DYING.

A Terrible Double Tragedy at Anderson,
Indiana.

ANDERSON, Ind., Aug. 8.—James Ben-
field is a corpse and John Davis is mor-
tally wounded. Wednesday night one
of the bloodiest tragedies ever committed
within the borders of Madison county
occurred. On South Noble street re-
siding John Davis, with his family, con-
sisting of wife and mother-in-law.

Davis has been married about two
years. His wife, previous to her mar-
riage, was wayward, and her associates
were not of the most moral type. James
Benfield, a young man of Elwood, this
county, and, upon a number of occa-
sions, associated with Mrs. Davis.

Benfield, accompanied by Ed. Brown
and another young fellow whose name
we could not learn, came to this city
yesterday afternoon. They went to
Davis' residence, and in the absence of
the family stole some books, and a re-
volver belonging to Mr. Davis, and went
away, returning in the evening.

Benfield called Mrs. Davis to the
door. Her husband answered the call
and ordered Benfield to leave. He
muttered something and turned and
walked away a few steps, and turning,
drew the revolver he had stolen from
Davis and shot him.

The ball entered the left side just be-
low the heart, and ranging downward,
is supposed to have lodged in the liver.
His injuries are considered fatal. Davis
replied with a shot from his pistol. The
ball struck Benfield just above the
right eye, and passed entirely through
the head. Benfield died at 6:30 yester-
day morning.

Benfield, when he raised his revolver
to shoot, Brown, who was a short dis-
tance away, yelled at Benfield to shoot
him, meaning Davis. It was no sooner
said than executed. Brown was imme-
diately arrested and placed in jail. The
coroner is holding an inquest.

A DISPLAY FROM BRAZIL.

South America Will Be Well Represented
at the World's Fair.

CHICAGO, Aug. 8.—Mr. A. M. Gibson,
in a letter to the world's fair head-
quarters from Rio Janeiro, suggests that
the managers of the world's Columbian
exposition should at the earliest practi-
cable date begin the propaganda in its
favor throughout South America, and
particularly should it be directed to-
ward Brazil, the most important in ex-
tent, population and wealth of the South
American countries.

The probable establishment of a fast
line of steamships direct between New
York and Rio Janeiro under the aid to
rapid and frequent ocean mail service
to be granted by congress, in accord-
ance with the recommendations of the
Pan-American conference, will, he says,
enable the Brazilians to visit the world's
Columbian exposition at Chicago with
comfort and at a very great saving
of time and that he doubts not the op-
portunity will be embraced by thou-
sands.

He urges the advisability of the Col-
umbian exposition people taking imme-
diate steps leading to the spreading of
information among the people of his
country regarding the attractions which
Chicago will afford visitors, and make
known to them the routes of travel be-
tween the eastern seaboard and the
western metropolis and the wonders to
be seen en route; and that it is of the
first importance that the government of
Brazil should be spurred to a realization
of the necessity that it make at Chicago
a display commensurate with the great
advantages Brazil and the Brazilian
people will derive therefrom; that his
familiarity with all the great world's
expositions enables him to say that Bra-
zil has never made a display in any
sense worthy of its wonderful and vast
resources.

GEORGIA DEMOCRATS.

The State Convention at Atlanta Nom-
inates a Ticket.

ATLANTA, Aug. 8.—The state Demo-
cratic convention met at 12 o'clock yester-
day, Hon. R. L. Berner in a ringing
Democratic speech calling it to order.
Hon. W. H. Atkinson, of Coweta
county, was elected permanent chair-
man. Hon. W. J. Northern, of Hancock
county, was nominated for governor by
a unanimous and a rising vote. Gen.
Phil Cook was renominated for sec-
retary of state; Capt. W. A. Wright for
comptroller general and Col. R. H. Har-
deman for treasurer. Judge George Les-
ter, of Cobb county, was nominated for
attorney general over Hon. Clifford
Anderson the present incumbent. R.
E. Westcott, of Cobb county, was nomi-
nated for commissioner of agriculture
on the fourth ballot, over Judge J. E.
Anderson, the present commissioner.

The platform adopted by the conven-
tion renewed the party pledges to the
political principles set forth in the Na-
tional Democratic platform of 1888. A
strict reliance on the integrity and abili-
ty of the party was relied on to correct
the existing abuses of government.
Governor John B. Gordon and other
state house officers were endorsed with
pride for their capacity and fidelity in
managing the affairs of the state. The
convention, after hearing an address
from Col. Northern, the nominee for
governor, adjourned sine die.

Census Office Reports.

The Statistics on the Value of
State Given Out.

AN INCREASE IN PRODUCTION.

It Will Amount to Nearly Twice That of
the Last Census—Proceedings of the
House and Senate—Various Other Wash-
ington Dispatches.

WASHINGTON, Aug. 8.—The census
office reports that the total value of all
state produced in the United States in
1889 is \$3,444,503. Of this amount \$2,-
775,271 is the value of 828,990 squares
of roofing slate, and \$669,232 is the
value of slate for all other purposes be-
sides roofing.

As compared with the statements of
the tenth census report of 1880, on stone,
the roofing slate product of 1889 is nearly
twice as great in number of squares and
in value. A consideration of the
slates used for other purposes than roof-
ing appears to have been omitted from
the tenth census report. The total value
of all slate produced in 1889 is more
than twice as great as that considered
in the tenth census.

According to "mineral resources of the
United States, 1888," the total number
of squares of roofing slate produced in
that year is 692,400, valued at \$2,053,-
440.

House Proceedings.

WASHINGTON, Aug. 8.—The house
yesterday adopted a resolution calling
on the postmaster general for copies of
the agreements for the transportation
of mails between the United States and
foreign countries, the conditions upon
which the awards are made and the
rates of payment for the service.

Consideration of the general defi-
ciency bill in committee of the whole
was then proceeded with.

Mr. Clunie, of California, offered an
amendment, which, after some discus-
sion was adopted, granting an extra
month's pay to the employees of the
senate and the house.

The bill having been disposed of the
committee rose, all the amendments
were agreed to excepting the extra
month's pay to senate and house em-
ployees and then the bill went over until
to-day.

A bill was passed making the inter-
state commerce law applicable to uni-
corporated express companies. The
house then, at 4:50 p. m., adjourned.

In the Senate.

WASHINGTON, Aug. 8.—The senate
met at 10 o'clock, but there were only
thirty-two senators present at roll call,
less than a quorum. After waiting a
few moments a quorum was obtained,
and after transacting some morning
business, the tariff bill was taken up
and considerable progress made with
the metal schedule. Several proposi-
tions to reduce rates advanced by the
Democrats were voted down by a strict
party vote.

World's Fair Decisions.

WASHINGTON, Aug. 8.—Comptroller
Matthews, of the treasury department,
has rendered an opinion in which he
holds that the world's fair commissioners
are entitled to use the telegraph in
connection with public business at gov-
ernment rates; also, that alternate
world's fair commissioners are not en-
titled to allowances for attendance on
official meeting of the commission
unless their principals are unable to at-
tend.

A Laundryman a Laborer.

WASHINGTON, Aug. 8.—The treasury
department has informed a correspond-
ent at Geneva, N. Y., that a Chinese
laundryman, whether proprietor or
otherwise, is a laborer, and under the
act of Oct. 1, 1888, cannot be permitted
to re-land in the United States after
visiting his native country.

A Work of Art.

WASHINGTON, Aug. 8.—Assistant Sec-
retary Spaulding has instructed the col-
lector of customs at Chicago, to admit
free of duty a bronze statue of Carl Von
Linne, for use in Lincoln park, Chi-
cago.

TWO SERIOUS EXPLOSIONS.

Denver, Colorado, Seems to Be Doomed to
Such Accidents.

DENVER, Aug. 8.—For the fourth time
in as many days an explosion has oc-
curred in this city, which will result
fatally. Two explosions occurred yester-
day, and both are serious in their
nature. At 4 o'clock in the morning a
lamp in a Market street lodging house
exploded and set fire to the establish-
ment, in which there were fifty people.
Wash. Donovan was severely burned
about the feet and chest, and one arm
was cooked and will have to be ampu-
tated.

At 4 o'clock in the afternoon by the
explosion of a gasoline oil can at
Twenty-sixth and Franklin streets, A.
G. Campbell, superintendent of the
Towel company, was enveloped in
flames and all but roasted to death in
less than thirty seconds, when a blanket
was thrown around him and the fire ex-
tinguished.

Escaped With a Young Girl.

LOWELL, Mass., Aug. 8.—George L.
Brown, otherwise known as Lee Brown-
ing, a prominent Good Templar, is re-
ported to have eloped with Agnes L.
Hill, aged 19. The girl has been miss-
ing for two weeks. Brown is married
but separated from his wife some time
ago.

Adjourned Without Action.

NEW YORK, Aug. 8.—The meeting of
the joint committee of the Trunk Lines
association and the Central Traffic as-
sociation adjourned yesterday to recon-
vene at Chicago on Aug. 14. All pend-
ing questions were deferred until that
time.

CROP REPORTS.

Ohio, Kansas and Illinois All Report a
Short Crop.

COLUMBUS, O., Aug. 8.—The crop re-
port of the Ohio state board of agricul-
ture, giving the condition of crops up
to Aug. 1, has just been issued. The
condition of wheat, compared with a
full average, is put at 77 per cent., the
average date of harvest being July 8.

The report says: "The present report
indicates a decline of six points in the
wheat prospect since the estimate of
July 1. The result of threshing has
been a disappointment to farmers in
most sections of the state. The yield is
not so great as was anticipated from the
appearance of the growing grain. Many
correspondents report the wheat yield
at from a quarter to a third less than
was expected. Reports of full or fair
yield are very few.

While no estimate was asked this
month for corn, correspondents, in their
general remarks, refer to corn being
badly injured and a poor prospect. The
indications are that only from 69 to 75
per cent. of a full crop can be expected.
Oats were badly injured by blight or
rust. The crop is very short and not of
prime quality.

The potato crop will be very short;
but little more than half an average
crop can be expected. Pastures have
failed rapidly by reason of the contin-
uous dry weather. Hay is a full crop and
was harvested in good condition. Ap-
ples, peaches and pears almost a total
failure.

Short Crop in Kansas.

TOPEKA, Kan., Aug. 8.—Reports re-
ceived from about 500 correspondents of
the state board of agriculture, repre-
senting every county in the state, clearly
indicate that the growing crops in
every portion of the state have been
seriously injured. The severe drought,
intense heat and occasional hot winds
prevailing throughout the state gener-
ally have been the cause of this falling
off in corn prospects. Its condition,
which one month ago was reported at
90 per cent., is now reported at only 33
per cent. of an average crop. The aver-
age wheat product will be about 23,000,-
000. The flax area has been greatly in-
creased and the crop is very good. The
oats crop, although short, is yielding
better than was expected. A yield of
from 40 to 70 per acre is reported from
a number of counties.

Crops Damaged in Illinois.

SPRINGFIELD, Ill., Aug. 8.—This bul-
letin is based on the data returned by
the press correspondents of the Illinois
state board of agriculture Aug. 1. The
last month has been one of unusual
drouth and high temperature, and
much damage is being done to growing
vegetation of every description. The
corn crop and pasturage have suffered
in some portions of the state to an
alarming extent. Out of the 102 coun-
ties in Illinois only four fail to com-
plain of the lack of precipitation and its
damaging effect on the growing crops.

THE FEDERAL ELECTION BILL.

A Substitute to the Lodge Bill Reported
to the Senate.

WASHINGTON, Aug. 8.—Mr. Hoar,
from the committee on privileges and
elections, has reported to the senate a
substitute for the Federal election bill,
and known as the Lodge bill, which
passed the house on the 2d of last
month. The substitute varies from the
Lodge bill in some important particu-
lars. The more important modifications
and changes are as follows:

The army at the polls section of the
Lodge bill or rather that section which
in effect incorporates the army at the
polls. Section of the revised statute in
this bill is omitted from the senate com-
mittee's bill. The certificates of elec-
tion of members of congress issued by
the state board of canvassers, which
under the house bill are to be accepted
by the clerk of the house, under the
senate committee bill, may be contested
and are subject to final adjudication be-
fore United States circuit court judges.
The house to house visit clause for the
purpose of verifying registry lists, in
the house bill, is omitted from the sen-
ate committee bill and United States
marshals are not permitted to select
juries.

The penalties for crimes which may
be committed under the senate bill,
with the exception of bribery, are all
made misdemeanors instead of felonies,
as under the house bill, and the penalti-
es are correspondingly lighter. It is
understood that the amended committee
bill does not meet with the approval of
all the Republican members of the com-
mittee, several of them being dissatis-
fied with some particular, though un-
important, features of it. They hope,
though, to secure still further modifica-
tions before the measure is put upon its
final passage in the senate.

Democratic members of the senate
privileges and elections committee, in
criticizing the substitute, say there is no
radical difference between the house
bill and the substitute reported, and
save in the matter of expression, the
two measures are alike in principle and
desired effect, and that either would
produce equally iniquitous results.

Strike Settled.

FARMINGTON, N. H., Aug. 8.—The
strike of the Boot and Shoe Workers'
International union for a restoration of
a 5 per cent. cut-down at the factory of
H. B. Edgerley & Son, was settled yester-
day in favor of the strikers, the union
being: The wages restored, a union
shop in the future, and the ultimate
abolition of future troubles to the gen-
eral board of the union.

Newspaper Changes Hands.

CHICAGO, Aug. 8.—The Globe news-
paper, which was started about two
years ago by Austin C. Patterson, the
late Charles R. Demott and H. A. Har-
litt, has been purchased by a syndicate
composed of M. C. McDonald and
others. The late owners of The Globe
vacated the premises at 5 o'clock yester-
day afternoon, and the new manage-
ment took possession.

EVENING BULLETIN. DAILY, EXCEPT SUNDAY. **ROSSER & MCCARTHY,** Proprietors. FRIDAY, AUGUST 8, 1890.

If Tinsley really thought he would be elected by 10,000 majority, he must be a sorely disappointed man. Longmoor's majority grows larger and handsomer with age.

DOVER Democrats carried off the banner at the late election. They rolled up a majority of 112 for Mr. Kirk, the largest given him by any precinct. Lewishurg gets second place, giving Kirk 91 majority.

HANDSOME HANSON KENNEDY, of Carlisle, was elected Delegate to the Constitutional convention from the Nicholas-Robertson district, defeating Judge Ross, Independent, of Carlisle, by nearly 1,000 majority.

CAPTAIN MATT ADAMS can't find much consolation in the returns from the recent election. Had he acted the man and not sulked after the Louisville convention, Kentucky Democrats would have had a warm place in their hearts for him today.

THE Portsmouth Blade complains about the "gerrymander" in this State. The Blade doesn't have to come South of the Ohio river to see the beauties of "gerrymandering." The Republicans of the Buckeye State got up a fine sample of it a few years ago.

It reports are true, Speaker Reed and gang will soon lock horns with Secretary Blaine's "reciprocity" scheme. The Plumed Knight has converted the President, and the fight in the Republican ranks for freer trade will be watched from now on with renewed interest.

It is to be regretted that Hon. J. J. Nesbitt was defeated in the Bath-Rowan district for Delegate to the Constitutional convention. He is one of the brightest men in the State, a fact demonstrated when he served in the Legislature a few years ago. The Farmers' Alliance won by 100 majority.

In Robertson County, Tilton, Independent Democrat, defeated W. A. Morris, Democratic nominee for County Judge, by over one hundred. Reveal and Sparks were elected Sheriffs. Hanson Kennedy carried the county by over two hundred for Delegate to the Constitutional convention.

THE Republicans of the Eleventh Ohio Congressional district will hold their convention at Hillsboro September 23. The ratio of representation will be one delegate for each 100 votes and one for each fraction of fifty or over cast for General Harrison for President in 1888. The several counties will be entitled to delegates as follows: Adams, 29; Brown, 31; Clermont, 41; Highland, 36, and Pike, 18. Total, 155. The Democrats will hold their convention at Georgetown September 16.

HERE is something which the Cleveland Plain Dealer wants the Ohio farmer to paste in his hat:

The Republicans of Ohio warmly commend the McKinley Tariff bill as passed by the House of Representatives as a wise measure.—Ohio Republican Platform.

There is not a section or a line in the entire bill that will open a market for another bushel of wheat or another barrel of pork.—Secretary Blaine to Mr. Frye.

It will do well for the farmers of other States to bear in mind what Blaine, the leading Republican of the country, says about this Republican measure.

"MR. FRANK PIXLEY, a leading Republican of California, is very much opposed to the Force bill," remarks the Louisville Times, "and declares that if he lived in South Carolina he would not suffer negroes to vote unless they voted as he told them to vote. He says that if the Chinese on the Pacific Slope were voters and in the majority, that the whites would drive them from the polls at the point of the bayonet. Mr. Pixley is a mighty man at home and one of the pillars of the g. o. p."

No doubt there are hundreds of Republicans in the North who think as Mr. Pixley does, but they won't talk that way.

A SPECIAL from Washington City brings the news that "there is consternation among the Census Bureau officials and other Republicans over the returns of the population of the country. It has been claimed that the North and Northwest would show a big increase, and that the South would lose heavily. Returns are said not to be panning out on that line to the extent looked for. Most of the gains in the North are in the large cities, which are chiefly Democratic, and the only big gains in the Northwest are in Nebraska. In Georgia, Alabama, Texas, Tennessee and Arkansas, there is a handsome increase, it is said, and the calculations of the Republicans on securing an increase in the number of Congressmen may be badly upset after all." So mote it be.

Here and There.

Notice to Water Consumers.

The break-down to the pumps is more serious than anticipated. It will take several weeks to make repairs. This company therefore notifies water consumers to have leaks stopped, waste no water and stop sprinkling until further notice. A reduction in next water bill will be made for whatever time this company does not furnish water for sprinkling purposes.

Without Bail.

The case of the State against "Bird" Crow, charged with the murder of "Banty" O'Donnell, came up before Judge Coons this morning at 10 o'clock. Defendant waived examination and was recommitted to jail without bail, to answer at the next term of the Circuit Court.

THE Ashland Signal says the universal cry at that place is that rents are too high. Eight and ten dollars a month is charged for a house of three rooms. The Portsmouth Blade says there are "some of the same kind of hogs" in that city.

WONDER if Judge Tinsley still thinks Mait Adams carries the Union Democrats of Kentucky in his coat pocket.

MR. GRO. W. ADAIR was not a candidate for County Attorney at the late election. There were 227 votes recorded for him, but these were cast by some of his friends simply as a compliment to him.

MR. E. W. FITZGERALD, one of the best and most efficient members of the City Council—a member who has ever proved watchful of the people's interests—has entered the race for Mayor. He announces himself to-day.

THE C. & O. offers the following remarkably low rates: \$18 for round trip to New York, \$14 for round trip to Washington and \$12.50 for round trip to Old Point. Tickets on sale Aug. 8th, 9th, 10th and 11th and good returning until Sept. 30th.

THE Maysville Fair Company, in issuing catalogues, overlooked the saddle stallions: Four years old and over, \$20. Three years old and under four, \$15. Two years old and under three, \$10. One year old and under two, \$5. These rings will be shown on Thursday, August 21st.

MCKRELL's big mark-down sale commenced to-day, and parties looking for bargains in dry goods should not miss this opportunity. Nothing reserved, but everything goes at cost and less for spot cash. The big reduction in prices was advertised in yesterday's BULLETIN.

SAYS the Paris Kentuckian-Citizen: "Rev. Dr. Hays, the blind preacher of Maysville, delivered a series of sermons at the First Presbyterian Church, beginning Thursday night and closing Sunday. His discourses were thoughtful, earnest and practical. Sunday morning the sacrament of the Lord's Supper was administered. At night he preached in the Second Presbyterian Church. The way in which the Bible should be read and studied to be profitable and productive, was the subject of his discourse, and was handled with clearness and force. Dr. Hays, it will be remembered, sometime ago delivered several sermons here on the mode of baptism, which were regarded as very able presentations of that subject, from the Presbyterian standpoint."

OUR NEIGHBORS.

MAYSLEICK.

All kinds of vegetation is very scarce, and hard to get for love or money. The potato crop is almost a failure this year, especially in this section.

Mrs. J. A. Jackson and son have gone to Cape Ridge, Bourbon County, and will be absent several days.

H. F. Hawkins, who has been quite poorly for some days, is thought to be some better. Thirteen wagons were brought to Myall's shop in one day to have the tires cut. The dry weather made them loose.

Mrs. W. S. Storrs, of Cedar Rapids, Iowa, who has been visiting relatives here for some weeks past, has gone to Maysville to visit her cousin, C. C. Hopper, and other relatives.

We had three days' election in this place. First the vote proper, the second the police court was kept busy investigating, the third day hauling them home in buggies, wagons, &c. Of course nobody was drunk, but the most shocking thing of the whole affair was to hear a young man curse his mother. The best friend a boy ever had is his mother. Be kind to her.

MINER'S AXIMS

Don't put your foot on a "coffin" ship,

Or in a "coffin" shoe.

Coffin Ship.

Is that a new phrase to you?

The sailor understands it. It's a ship that looks all right—as right as paint can make her. But the ship isn't sound for all her looks. The owners have "skinned" on her repairs. They've used paint and putty where they should have used oakum and rivets. She'll go to pieces at the first strain. So they call 'em "coffin" ships. Good name, isn't it?

Coffin Shoes.

Capital name for "skinned" shoes. They, too, will go to pieces in a little while. It's with them as with the ships—a pretty outside covers up cheapness of work and material. The dealer don't care. It's not his funeral. The funeral goes with the "coffin" shoes to the buyer.

But why buy these when you can get good ones at MINER's, the firm that has back of it

58 YEARS SELLING GOOD SHOES.

"A Ground-Hog Case."

A boy was digging with an old hoe, as if for dear life, in an embankment at the roadside. A passing traveler, seeing the energy and earnestness of the boy, called to him, "What are you doing there, my lad?" Without losing a flick or looking up, "Diggin' fur a groun' hog" was answered. "Well, you will never get him at that rate," said the man. The boy, working on, replied, "The preacher's a comin' to our house to dinner, an' we've got to hev meat, an' I must git that 'ar groun'-hog." This is the origin of "it's a ground-hog case."

Now it is a "ground-hog case" with us in the matter of getting rid of our SUMMER FOOTWEAR, without regard to prices, that we may re-invest our means in the largest variety of Fall and Winter goods ever seen in Maysville. In view of our small margins, our success depends upon the frequency with which we are enabled to turn over capital. This stock must go. Come and see it and you will be astonished at our prices. Labor Trouble Abroad.

The Strike at Cardiff Remains Unsettled.

THE UNION MEN ARE HOPEFUL.

Employers Willing to Make Some Concessions, While the Men That are Out Remain Firm to Their Demands—Other Items Telegraphed Over the Atlantic Cable.

LONDON, Aug. 8.—Although neither Lord Dunraven nor Cardinal Manning has signified his willingness to act as arbitrator in the labor troubles at Cardiff, it is believed that both will be asked to do so by both parties in the dispute, and that they will accept the invitation.

All traffic on the railways and docks at Cardiff has been stopped. The railway directors are making fresh overtures to the men.

Ben. Tillett, the labor leader, addressed an immense meeting of union men in the public square at Cardiff last evening. He counselled the men to remain firm, but to refrain from violent demonstrations, which could only have the effect to weaken their cause.

Already there are signs that the directors of the companies are disposed to compromise on a basis of half what the men demand, but in the matter of the absolute exclusion of non-union men, the principal demand of the employees, the directors are still firm in their refusal to accept dictation or to depart in the slightest degree from their resolve to engage whatever class of men they may choose to employ.

Explained in the Commons.

LONDON, Aug. 8.—In the house of commons yesterday evening Sir James Fergusson stated that no arrangement had yet been made with the Newfoundland delegates. The motion vivendi in regard to lobster fisheries, he said, would expire at the end of the present session.

Regarding the treatment of Jews in Russia, Sir James said that reports had been received from the British ambassador at Petersburg that the Russian government emphatically denies the statement made by the correspondent of The Times in recent dispatches from the Russian capital.

Effect of the London Strike.

LONDON, Aug. 8.—Shipping firms say that this part of London has been greatly injured by the recent strikes, that the tendency of the ocean carriage is toward Liverpool, and that steamers which would be discharged and loaded in Liverpool in four days and in London in eight days before the strike, have occupied twelve days since that event. It is claimed that the dock laborers purposely delay work in order to get extra pay for after hours.

A Large Shipment of Dressed Meat.

LONDON, Aug. 8.—A steamer arriving from Auckland yesterday brought a cargo consisting of 40,000 sheep and 2,000 beefs, all dressed and frozen. This is the largest cargo of dressed meat that has ever been brought to England.

WHAT THEY THINK OF ELECTRICITY.

Comments of the London Press on Kemmler's Execution.

LONDON, Aug. 8.—The papers comment exhaustively on the execution of Kemmler, and all agree as denouncing it as barbarous.

The Telegraph describes it as horrible and atrocious, and adds:

"If such a death be recommended for its mercy, electrical execution must be brought to a greater degree of perfection."

The Chronicle says: "Seldom has a narrative more repulsive and horrible shocked public opinion. The ghastliness and the hangman's rope do not compare in point of cold-blooded barbarism with the achievements of modern science in an ill-starred attempt to better the deeds of Jack Ketch."

The Times says: "It is impossible to imagine a more revolting exhibition. We fail to see that electrical execution holds out a prospect of definite gain in the direction of humanity."

The Standard says: "The execution will send a thrill of indignation through the civilized world. The scene may be described as a disgrace to our common humanity. The demoralizing effect of the scandalous scene upon the people of America cannot be overestimated, they having latterly developed a craze for inhuman levity."

Robbers' Harvest at Newport, R. I.

NEWPORT, R. I., Aug. 8.—Another robbery occurred last evening at the residence of Edward F. Knowlton, of Brooklyn, when the family were at dinner, the thieves forcing a second story window and escaping unseen and unheard. Mrs. Knowlton places her loss at \$8,000, every bit of jewelry, including watches, necklaces, rings, pins and hairpins, except what was upon her person, being cleaned out. Another robbery, amounting to \$2,500, is said to have taken place last night, but particulars cannot be learned.

Not Valued as Sold.

CONCORD, N. H., Aug. 8.—The large ice houses at Concord Junction, owned by John E. Morrill, of Charlestown, and containing many hundred tons of ice were burned last night, entailing a loss of several thousand dollars; insured. The cause of the fire was probably incendiary.

Shot by His Playmate.

CADIZ, O., Aug. 8.—Norris Garvin, a son of a prominent attorney, accidentally shot and instantly killed Roy Merrick, 6-year-old son of Professor Merrick, of the public schools and formerly connected with the Xenia orphans' home.

Sawmill Explodes.

FRANKFORT, Ind., Aug. 8.—Early yesterday morning John Jacoby's sawmill, at Mulberry, exploded, killing Engineer Will Shoenaker and wounding John Jacoby, Allen Jacoby, Mont Rose and two children of Alfred Collins.

PRISON REVOLT.

The Convicts in the Massachusetts Penitentiary Attempt to Escape.

BOSTON, Aug. 8.—A general riot took place at the state prison yesterday. The trouble was a culmination of the difficulties attendant upon the enforcement of the Bertillon system of measuring and photographing the prisoners, aggravated by the attempted escape of "Chickie" Walsh, his recapture and subsequent punishment.

At 2:45 the men stopped work in the work-hops, and with a terrific and general yell broke out. Windows and furniture were broken and the men rushed into the yard, and the entire crowd dashed for the various walls. The guards on the fences fired, and a terrificity the men, but as several were gained the top of the wall, the bullets were aimed to kill.

The prisoners were especially violent in the north and south wings which overlook the streets. A large crowd gathered around the prison and aided in the disturbance by their cries. Several prison officers were assaulted by the convicts and severely injured. Three of the convicts are now in the hospital with crushed skulls received while desperately resisting the officers. The strike was prearranged and was to have taken place at 1 p. m., but was postponed. "Chickie" Walsh was the ringleader.

In an interview with Warden Russell last night he said the fight was the most serious that had taken place at the prison for many years. He expected trouble yesterday and his police in readiness should any outbreak occur. In the afternoon he felt more certain that the riot was at hand and the police were in readiness for a surprise.

At 3 o'clock it came from the harness shop, where over 1,000 men were employed. Warden Russell at once hurried to the shop, which was in great confusion, and called upon those peacefully disposed to retire to their cells. About seventy-five men complied. The others, however, endeavored to reach the wall in an attempt to escape. Capt. Gaskins and forty-five officers now appeared, and after a short struggle the prisoners were gotten under lock and key.

The warden has seventy-eight men locked in strong cells. They will be kept on bread and water until they express their willingness to obey the rules of the prison.

During the confusion in the harness shops a fire was started by some of the prisoners but was quickly extinguished. It is thought that the plan of the prisoners was to start a fire and in the excitement when the outer gates were opened to admit the fire department and make a break for liberty.
